

Storybook Garden

The Storybook Garden is an edible garden for children on the South side of the Corrales Library Building. The plan includes raised beds, espalier (trained) fruit trees and a Strawberry Bed grown in an actual vintage bed frame. There will be child-friendly seating and much more! Watch this page for exciting planting dates (small helping hands welcome!) and other announcements.

Here is a guide to "Sheet Mulching/composting your beds to passively improve your soil:

Basic Backyard Sheet Mulching
